"While trying to figure out what to do with the many trees down in my yard that Ms, Irene pushed over, and the big mess she left, I looked out the window and saw two men with a clip board. I thought "yay tree guys giving estimates". Well that wasn't the case, they were God's helpers! Two neighbors had trees actually on the house. They got one off and relieved the lady in just about a day, today I guess they will do the other. What an amazing ministry, instant and abundant helping hands. Thank you.
